

KNOWLEDGE ORGANISER Science

Year 1 Animals including humans

Key Facts

Amphibians live in the water as babies and on land as they grow older. They have smooth, slimy skin.

Birds All birds have a beak, two legs, feathers and wings.

Fish live and breathe under water. They have scaly skin, fins to help them swim and they breathe through gills.

Mammals are animals that breathe air, grow hair or fur and feed on their mother's milk as a baby.

Reptiles All reptiles breathe air. They have scales on their skin.

Carnivore Animals that mostly eat other animals (meat) are carnivores.

Vocabulary

Sight Your eyes let you see all the things around you.

Hearing Your ears let you listen to all the things around you. Your brain is able to tell what different sounds are.

Touch Your skin gives you the sense of touch. You can tell if something is warm, cold, smooth or rough without even looking at it!

Taste Your sense of taste comes from your tongue. You can tell if something tastes bitter or sweet.

You might have some tastes you like and some you don't.

Smell You smell using your nose. Your nose can tell if things smell nice or not nice.

Herbivore Animals that only eat plants are herbivores.

Omnivore Animals that eat both plants and other animals are omnivores.
